

Senior Software Developer (Java)

Phillip Capital Inc. is looking for an experienced software developer in Java programming to develop high-visibility client facing financial platform for our customers. It will be an added bonus if you have experience in full stack development for Microsoft technologies and modern UI frameworks using Visual Studio, C#, ASP.NET Core 2.0, Entity Framework, ASP.NET and SQL.

Please note that this is a high-pressure job, and the stakes are high. If you are not willing to work hard and be stretched, please do not apply. Experience in developing financial software preferred but not necessary.

Primary Responsibilities

- Design, develop, and implement applications using existing technology platforms
- Play a key role in collaborating with different stakeholders within the project
- Effectively troubleshoot mission critical financial applications

Requirements

- Necessary traits: Absolute integrity, grit, strong sense of ownership, detail oriented, solid communication skills, clear thinking, ability to reflect and learn from mistakes, willingness to deal with uncertainty, team player
- Minimum 3 years of experience working with web, console or API development using Java/Java EE Components/Frameworks
- At least 2 years of experience working with IBM MQ / Rabbit MQ
- At least 2 years of experience on typical java and other JVM ecosystem stack (Spring and its subprojects, maven, Hibernate, others)
- Have a deep understanding of multithreading and real-time software architecture
- Solid knowledge of OOP software concepts, design patterns, and best practices
- Experienced in development through the full cycle of SDLC, designing and working with n-tier architectures
- Knowledgeable in writing complex SQL stored procedure, data normalization and performance optimization
- Effective verbal and written communication and ability to work with cross-functional teams
- Self-motivated, independent, detail oriented, responsible, and team player
- Able to work under tight deadlines and with minimal supervision

Preferred

- Experience developing trading software for an FCM or Broker Dealer.
- Working knowledge of post trade processing in the futures markets.

Perks of Working at Phillip Capital

- Open and flat structure
- Start-up mode
- Inclusive; diversity welcomed
- Overseas travel opportunities
