

Phillip Capital Inc. Employment Opportunity in Chicago

Software Developer - with opportunity to work remotely

Phillip Capital Inc., a US based Futures Commission Merchant (FCM) and securities broker dealer, is seeking a motivated **Software Developer** (with opportunity to work remotely) to join a growing, agile team of developers that build innovative software solutions for its futures and brokerage businesses.

Responsibilities

- Write new software and enhance existing software using Microsoft .NET technologies
- Collaborate with stakeholders and team members to gather requirements and deliver software solutions that align to the strategic direction of the business
- Contribute new ideas to improve software practices and processes
- Submit and conduct peer code reviews
- Contribute to the full life cycle of the development and software rollout process
- Support production applications during U.S. trading hours as needed

Requirements

- Bachelor's or Master's degree in the Computer Science, Engineering or related field
- At least 5 years of software development experience in Microsoft technologies (C# .NET Framework, .NET Core, ASP .NET, MS SQL) and the Entity Framework
- Familiar with Agile SDLC methodologies and tools (e.g. JIRA, Rally, Azure DevOps)
- Effective communication with peer developers and non-technical audience
- Write comprehensive design and architectural documentation as well as user guide
- Strong troubleshooting and problem-solving skills
