

Phillip Capital Inc. Employment Opportunity in Chicago Trading System Developer

Are you looking for new challenges and to advance your career? If so, we (Phillip Capital Inc.) might have an opening that might interest you.

Phillip Capital Inc., a US based Futures Commission Merchant (FCM) and securities broker dealer, and conveniently located in the Chicago loop with easy access to trains, is seeking a motivated **Trading System Developer** to join a growing, agile team of developers that build innovative software solutions for its futures and brokerage businesses.

Responsibilities

- Write new software and enhance existing software using Microsoft .NET technologies
- Collaborate with stakeholders and team members to gather requirements and deliver software solutions that align to the strategic direction of the business
- Contribute new ideas to improve software practices and processes
- Submit and conduct peer code reviews
- Contribute to the full life cycle of the development and software rollout process

Requirements

- Bachelor's or Master's degree in the Computer Science, Engineering or related field
- At least 5 years of software and web development experience in Microsoft technologies (.NET Core, C# .NET Framework, ASP.NET, MS SQL) and the Entity Framework
- Familiar with Agile SDLC methodologies and tools (e.g. JIRA, Rally, Azure DevOps)
- Effective communication with peer developers and non-technical audience
- Write comprehensive design and architectural documentation as well as user guide
- Strong troubleshooting and problem-solving skills

Skills/Experience

- Experience working in the financial industry
- Experience with developing and supporting APIs
- Experience with writing trade capture programs
- Strong working knowledge of trade risk management
- Experience working with FIX protocol
- Proficient with processing Message Queues
